ACTION: Proposed rule.

SUMMARY: The Environmental Protection EPA is proposing to approve revisions to the Antelope Valley Air Quality Management District, Mojave Desert AQMD, Monterey Bay Unified Air Pollution Control District, and South Coast AQMD portion of the California State Implementation Plan (SIP). These revisions concern volatile organic compound (VOC) emissions from architectural coatings, liquefied petroleum gas transfer, and ignition of barbecue charcoal. We are approving three local rules and rescinding one local rule that regulate these emission sources under the Clean Air Act (CAA or the Act).

SUPPLEMENTARY INFORMATION: This proposal addresses the following local rules: Mojave Desert AQMD Rule 1113 Architectural Coatings, Monterey Bay Unified APCD Rule 426 Architectural Coatings, Antelope Valley AQMD Rule 1174 Control of Volatile Organic Compound Emissions from the Ignition of Barbecue

Charcoal, and South Coast AQMD Rule 1177 Liquefied Petroleum Gas Transfer and Dispensing. In the Rules and Regulations section of this Federal Register, we are approving three of these local rules and rescinding one local rule in a direct final action without prior proposal because we believe these SIP revisions are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. Please note that if we receive adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, we may adopt as final those provisions of the rule that are not the subject of an adverse comment.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

Dated: September 25, 2013.

Regional Administrator,
Region IX.
